# Palmer

## Wildlife Management Area

*Palmer, Warren*  
*1,017 Acres*

---

**SIZE:** 1,017 acres. The terrain is mostly hilly and moderately sloped, but there is a considerable amount of relatively level land in the central and northeastern sections of the area.

**U.S.G.S. QUAD:** Palmer

**VEGETATION:** This property is composed primarily of wooded uplands dominated by transitional hardwoods that have overtaken old abandoned fields. A few dozen acres of open habitat are maintained in the central and northeastern sections of the area.

**WATER:** Two man-made ponds are located near the center of the property, but both are small and fairly shallow. The upper pond supports a nominal largemouth bass population and related warm-water fishery. Both ponds are stocked in the early spring to provide some very limited trout action.

**WILDLIFE:** Woodcock, deer, gray squirrel, rabbit, raccoon, waterfowl and numerous non-game species. This area is presently NOT stocked with pheasant.

**SPECIAL REGULATIONS:** None
